

# Thomas Norman Buckley

---

## AFFILIATION

Department of Plant Sciences, University of California, Davis, One Shields Ave, Davis, CA 95616  
*tnbuckley@ucdavis.edu*, +1 530 752 0320

---

## EDUCATION

- 1994-1999    **PhD in Biology**, Utah State University, Logan, Utah  
Major Professor: Keith A. Mott  
Dissertation: "Mechanisms and implications of stomatal interactions"
- 1990-1994    **BS in Biology**, James Madison University, Harrisonburg, Virginia  
Highest honors (*summa cum laude*)  
Botany Concentration, Minors in Mathematics and Chemistry
- 

## CAREER SUMMARY

- 07/2024-    **Professor**, University of California, Davis  
2019-2024    **Associate Professor**, University of California, Davis  
2017-2019    **Assistant Professor**, University of California, Davis  
2013-2017    **GRDC Senior Lecturer**, The University of Sydney  
2013-2013    **Associate Professor** (awarded tenure), Sonoma State University  
2008-2013    **Assistant Professor**, Sonoma State University  
2006-2008    **Senior Research Fellow**, University of New South Wales  
2005-2006    **Research Assistant Professor**, Utah State University  
2004-2005    **Research Fellow**, The Australian National University  
2000-2002    **Postdoctoral Fellow** and **Lecturer**, Utah State University  
1999-2003    **Postdoctoral Fellow**, The Australian National University
- 

## SUMMARY OF CAREER ACCOMPLISHMENTS

Author of 101 journal articles (38 as 1st/co-1st author, 19 as senior/co-senior) and 2 book chapters  
h-index 51/44, 9295/7035 citations (GS/WoS), eight 'Highly Cited' Papers  
Instructor for 15 university courses, supervisor or co-supervisor of 25+ research students  
PI or co-PI on competitive external research grants totaling over USD \$11M since 2009

---

## EXPERTISE

*Biophysics and ecology of plant responses and adaptations to environmental stress and change:*  
leaf and plant water relations; photosynthesis; respiration; field physiological phenotyping; gas exchange; sap flow; pressure probe; psychrometry; mathematical and computational modeling.

---

**RESEARCH GRANTS AS PI OR CO-PI**

23. National Science Foundation (NSF) (2023-2026) USD 693,860. "The unexplored direct response of stomata to temperature (DRST): patterns, mechanisms and implications" PI: **Tom Buckley** (UC Davis). Co-PI: Megan Bartlett (UC Davis).
22. Foundation for Food and Agriculture Research (FFAR) (2021-2024) USD 1,300,000. "Compact, low power, and machine-learning-based in vivo terahertz leaf sensor for precision irrigation." PI: Omeed Momeni (UC Davis). Co-PI: **Tom Buckley** (UC Davis).
21. USDA National Institute of Food and Agriculture (NIFA) (2020-2023) USD 475,000. "A synoptic approach to physiological breeding for drought resilience in bean." PI: **Tom Buckley** (UC Davis). Co-PIs: Troy Magney, Matthew Gilbert and Paul Gepts (UC Davis).
20. NSF (2020-2023) USD 689,929. "Collaborative research: The critical importance of diverse leaf 'hairstyles': integrative quantification of anatomy, function, evolution and ecology of trichomes." PI: Lawren Sack (UCLA). Co-PIs: **Tom Buckley** (UC Davis), Kailen Mooney (UC Irvine), Jeremy Beaulieu (University of Arkansas).
19. USDA NIFA (2021-2023) USD 166,164. "The Phenotyping Mobile Optical Platform (PhenoMOP)." PI: Troy Magney (UC Davis). Co-PIs: **Tom Buckley**, Christine Diepenbrock, Ed Blumwald, Charlie Brummer, Gail Taylor, Mallika Nocco (UC Davis).
18. Save the Redwoods League (Apr-Sep 2020) USD 191,755. "Redwood Genome Project (Extension)." PI: David Neale (UC Davis). Co-PIs: **Tom Buckley** (UC Davis), Jill Wegrzyn (University of Connecticut), Steven Salzberg, Winston Timp (Johns Hopkins University).
17. USDA NIFA (2020-2022) USD 279,000. "Interdisciplinary training in digital agriculture innovation." PI: Brian Bailey, co-PIs: **Tom Buckley**, Isaya Kisekka, Heiner Leith (UC Davis).
16. Australian Research Council (ARC) (2020-2023) AUD 500,000 (~USD 335,000). "Leaves in 3D: photosynthesis and water-use efficiency." PIs: Margaret Barbour (University of Waikato), John Evans (Australian National University), Lamiae Azizi (University of Sydney). Co-PIs: **Tom Buckley** (UC Davis), Andrew McElrone (UC Davis), Craig Brodersen (Yale), Danny Tholen (BOKU, Vienna).
15. 4R Research Fund (2019-2024) USD 503,429. "Nitrate-sensitive salinity management: an advanced 4R practice to optimize nutrient and water uptake under microirrigation." PIs: Patrick Brown and **Tom Buckley** (UC Davis).
14. Almond Board of California (ABC) (2019-2020) USD 15,144. "The effect of early post-harvest irrigation on tree health." PIs: **Tom Buckley** and Patrick Brown (UC Davis).
13. ABC (2019-2020) USD 58,047. "Data driven physiological modeling of canopy photosynthesis for precision irrigation management." PI: **Tom Buckley** (UC Davis).
12. Seed Grant for International Activities, UC Davis (2019-2021) USD 19,574. "Applying a revolutionary new method to measure leaf water potential in intact, functioning leaves." PI:

**Tom Buckley** (UC Davis). Co-PIs: Andrew Merchant (University of Sydney), Carel Windt (Forschungszentrum Jülich).

11. ABC (2018-2019) USD 59,076. "Data driven physiological modeling of canopy photosynthesis for precision irrigation management." PIs: **Tom Buckley** and Matthew Gilbert (UC Davis).
10. ABC (2017-2018) USD 29,266. "An improved heat ratio method sap flow sensor for providing continuous physiological data for decision support for almond grower and researchers." PIs: Matthew Gilbert and **Tom Buckley** (UC Davis).
9. International Wheat Yield Partnership (2016-2018) AUD 1,286,122 (~USD 900,285). "Increasing carbon capture by optimising canopy resource distribution" PI: **Tom Buckley** (University of Sydney). Co-PIs: Richard Trethowan, Helen Bramley, Peter Sharp, Andrew Merchant, David Fuentes (University of Sydney), Matthew Gilbert (UC Davis).
8. NSF (2016-2019) USD 916,736. "Integrated adaptations to moisture supply and crossover in whole-plant growth among Eucalyptus species along an Australian rainfall gradient." PIs: Tom Givnish and Kate McCulloh (University of Wisconsin), **Tom Buckley** and Mark Adams (University of Sydney).
7. Grains Research and Development Corporation (2015-2020) AUD 3,697,159 (~USD 2,588,011). "Introgression of heat-tolerant genes to broaden genetic variation in current wheat breeding populations." PIs: Richard Trethowan, Helen Bramley, Daniel Tan, **Tom Buckley** (USyd).
6. Phillip Bushell Foundation (2015-2018) AUD 260,000 (~USD 182,000). "Future of forest research and education." PIs: Mark Adams, **Tom Buckley**, Tarryn Turnbull, Tina Bell (USyd).
5. ARC (2015-2017) AUD 313,900 (~USD 291,730). Discovery Grant: "Are plants wasting water in the dark?" PIs: Margaret Barbour and **Tom Buckley** (University of Sydney).
4. ARC (2014-2017) AUD 541,581 (~USD 379,107). Linkage Grant: "Optimisation of catchment management: stable isotope studies of water storage and yield." PIs: Mark Adams, **Tom Buckley**, Willem Vervoort, Kevin Simonin and Claudia Keitel (University of Sydney), and Christopher Hepplewhite (ACTEW Corporation).
3. Bushfire & Natural Hazards CRC (2014-2017) AUD 1.259M (~USD 881,300). "Optimisation of fuel reduction burning regimes for fuel reduction, carbon, water and vegetation outcomes." PIs: Tina Bell, Mark Adams, Malcolm Possell, Tarryn Turnbull, **Tom Buckley** (USyd).
2. NSF (2012-2015) USD 913,892. "Mechanisms for the decline of leaf hydraulic conductance with dehydration, and plant- and environment-level impacts." PIs: Lawren Sack (UCLA), **Tom Buckley** (Sonoma State University), Diane Pataki (University of Utah).
1. ARC (2009-2012) AUD 785,000 (~USD 549,500). Linkage Grant: "Testing climatic, physiological and hydrological assumptions underpinning water yield from montane forests." PIs: Mark Adams (University of Sydney), **Tom Buckley** (Sonoma State University), Tarryn Turnbull and Willem Vervoort (University of Sydney), Nathan Phillips (Boston University), David Tissue (University of Western Sydney), Christopher Hepplewhite (ACTEW Corporation).

**SERVICE** (UNDERLINED POSITIONS ARE LEADERSHIP ROLES)**EDITORIAL**

**Chief Editor, AoB PLANTS** (2018-present)

**Editor, Special Issue on photosynthesis and stomata, Plant, Cell & Environment** (2023-2024)

**Associate Editor, Functional Plant Biology** (2018-2019)

**Associate Editor, AoB PLANTS** (2016-2018)

**Editorial Review Board Member, Plant, Cell & Environment** (since 2006)

**Communicating Editor, Trees: Structure and Function** (2006-09)

**DEPARTMENT-LEVEL**

**Vice-Chair**, Department of Plant Sciences, UC Davis (2022-25)

**Chair, Search Committee, Agroecology Endowed Chair**, Dept of Plant Sciences, UC Davis (2020-21)

**Department Executive Committee (PSEC)**, Dept of Plant Sciences, UC Davis (2019-25)

**Faculty Mentoring Skills and Training Committee**, Dept of Plant Sciences, UC Davis (2021-22)

**Search Committee, Communication Coordinator**, Dept of Plant Sciences, UC Davis (2021-22)

**Search Committee, Communication Coordinator**, Dept of Plant Sciences, UC Davis (2020-21)

**Search Committee, Digital Agriculture position**, Dept of Plant Sciences, UC Davis (2018-19)

**Graduate Research Assistantship Committee**, Dept of Plant Sciences, UC Davis (2018-22)

**Social and Seminar Series Committee**, Dept of Plant Sciences, UC Davis (2018-19)

**Jastro Award Review Committee**, Graduate Group in Horticulture and Agronomy, UCD (2019)

**Controlled Environments Facility Committee**, PBI Narrabri, University of Sydney (USyd) (2014-17)

**Graduate Program Committee**, Dept of Biology, Sonoma State University (SSU) (2010-13)

**Curriculum Committee**, Dept of Biology, SSU (2013)

**Chair, Budget, Space and Equipment Committee**, Dept of Biology, SSU (2009-10)

*COLLEGE/SCHOOL-LEVEL*

**Chair, College of Ag and Env Sci (CAES) Rules and Jurisdiction Committee**, UC Davis (2021-24)

**Chair, CAES Undergraduate Program Review Committee**, UC Davis (2019-20)

**CAES Undergraduate Program Review Committee**, UC Davis (2020-22)

**CAES Undergraduate Majors and Courses Committee**, UC Davis (2018-21)

**Local Promotions Committee, Division of Natural Sciences**, USyd (2015)

**Research Data Management Committee, Faculty of Agriculture & Environment**, USyd (2014)

**Elections Committee, School of Science and Technology**, SSU (2010-12)

*UNIVERSITY-LEVEL*

**Senate Graduate Council Program Review Subcommittee**, UC Davis (2020-23)

**Senate Undergraduate Instruction and Program Review Committee**, UC Davis (2018-22)

**Graduate Studies Faculty Review Committee**, UC Davis (2019-20, 21-23)

**Senator for the School of Science and Technology**, Academic Senate, SSU (2010-13)

**General Education Subcommittee of the Academic Senate**, SSU (2010)

**Copeland Creek Committee**, SSU (2010-11)

**Faculty Advisor and founding sponsor, SSU Cycling Team**, SSU (2009-12)

*COMMUNITY SERVICE AND SYNERGISTIC ACTIVITIES*

**Organizer for international workshop** on 3D leaf imaging and modeling, Sydney (2017)

**Co-organizer for international workshop** on the leaf pressure chamber, Davis (2018)

**Co-organizer for international conference** on respiration in the light, Angers, France (2016)

**Volunteer High School Science Tutor**, Narrabri HS (2015)

**Author of newspaper columns on science and society**, Narrabri Courier (2014)

**Mentor for High School Research Scholars**, SSU (2010-12)

*PEER REVIEWING*

**Ad hoc referee** for 43 journals (408 manuscripts reviewed since 2000), ten funding agencies (69 proposals), four book chapters, three PhD theses, and seven promotion/tenure reviews.

Peer-reviewed journals: *Agricultural and Forest Meteorology, American Journal of Botany, Annals of Botany, AoBP, Aquatic Botany, Australian Forestry, Biogeosciences, Canadian Journal of Botany, Ecology, Ecology Letters, Ecological Research, Ecosphere, Field Crops Research, Frontiers in Plant Science, Functional Plant Biology, Functional Ecology, Global Change Biology, in Silico Plants, International Journal of Thermal Sciences, Journal of the American Water Resources Association, Journal of Experimental Botany, Journal of Zhejiang University-Science B, Nature Climate Change, Nature Plants, New Phytologist, Oecologia, PeerJ, Photosynthesis Research, Physiologia Plantarum, Plant Biology, Plant, Cell & Environment, Plant Methods, Plant Physiology, Plant Science, PLoS ONE, PNAS, Science Advances, Scientific Reports, Silva Fennica, The Plant Journal, Tree Physiology, Trees: Structure and Function, Weed Research.*

Funders: Agreenium, Australian Research Council, BBSRC, German Research Foundation, Land and Water Australia, National Environment Research Council, National Science Foundation, Science Foundation Ireland, University of Hawaii Water Resources Research Center, LabEx NUMEV-University of Montpellier.

Book publishers: Elsevier Publishing, Sinauer Academic Publishing, Springer, UCANR.

---

## TEACHING EXPERIENCE

### *FULL RESPONSIBILITY*

**Plant Morphology and Evolution (PLB/PLS 116)**. University of California, Davis, Winter 2023, 2024.

I rebuilt and taught a 5-unit upper division majors' lecture and lab course covering reproductive and functional plant morphology from an evolutionary perspective.

**Mathematical Analysis of Plant Function (ECL 290)**. University of California, Davis, Spring 2023. I

taught a graduate course in the use of mathematical tools to model aspects of plant function, and to interrogate those models to extract testable hypotheses and quantitative relationships.

**Plant Propagation (PLS 171)**. University of California, Davis, Spring 2019, 2020, 2021, 2022. I

taught an upper division majors' lecture and lab course covering the biology and physiology of plant propagation, and numerous practical techniques.

**Leaves From the Outside In (ECL 290)**. University of California, Davis, Spring 2022. I taught a

graduate course in leaf biophysics, covering how operational leaf-scale measurements relate to processes and properties within leaves.

**Plant Environmental Stress Physiology (PLS 157)**. University of California, Davis, Spring 2018,

2020, 2022, 2024. I created and taught an upper division majors' course covering the mechanisms and implications of plant responses to environmental stress.

**Plant Physiology (BIOL 348)**. Sonoma State University, Fall 2008, 2009, 2010. I created and taught

an upper division biology majors' lecture and laboratory course in integrative plant physiology, covering metabolism, water and nutrient relations and whole-plant and eco-physiology.

**Global Change Biology**. SSU, Fall 2008, 2011. I created and taught a graduate seminar course in

the biology and ecology of global change, in which students led discussions of recent primary literature articles on various salient topics.

**Environmental Physiology (BIOL 347)**. SSU, Fall 2009, 2011, 2012, Spring 2011. I created and

taught an upper division biology majors' lecture and laboratory course in environmental physiology of animals and plants, covering adaptations to resource constraints and environmental change.

**Differential and Integral Calculus II**. SSU, Spring 2012. I created and taught a lecture and

laboratory calculus course covering integration methods, ordinary differential equations, sequences, series and multivariable calculus, emphasising applications to biology and using Excel & Mathematica.

**Diversity, Structure and Function (BIOL 121)**. SSU, Spring 2009-2013, Fall 2009-2012. I created and

taught half of a lower division biology majors' course covering the scientific method and the phylogenetics, evolution, structure and function of all non-animal life.

**Genetics, Evolution and Ecology (BIOL 122)**. SSU, Spring 2009. I created and taught half of a lower

division biology majors' course covering general ecology.

**The Biology of Excel.** SSU, Spring 2013. I created and taught a graduate course in which students learned how to use Microsoft Excel, including VBA, for intensive data analysis and simulation.

**Introduction to Biology.** SSU, Spring 2010, 2013. I created and taught a non-majors biology course covering all aspects of biology, emphasising how biology relates to modern civic life.

**Introductory Biology.** Utah State University, Fall 2000. I created and taught a first-year biology majors' course with 40 students, covering general science, general plant biology, genetics, and metabolism. I also taught two accompanying laboratory courses.

**Biology and the Citizen.** USU, Fall 2000, Summer 1998. I created and taught two non-majors' biology courses, with 50-90 students. The Fall 2000 course was also broadcast by satellite to remote campus locations throughout the state of Utah.

#### *GUEST LECTURING*

**Environmental Interactions of Cultivated Plants (ENH 001).** UC Davis, Spring 2019, 2020, 2021, 2022, 2023. I presented guest lectures about leaf and crop modeling in an upper division majors' course. (7%)

**Metabolic Processes of Cultivated Plants (PLS 100A).** UC Davis, Fall 2023. I presented two guest lectures about photosynthetic limitations exchange in an introductory majors' course. (10%)

**Introduction to Environmental Horticulture (PLS 100C).** UC Davis, Fall 2019, 2020, 2021. I presented guest lectures about plant propagation in an introductory majors' course. (7%)

**Plant Systems Biology.** University of Sydney, Semester 2 2014, 2015, 2016, 2017. I co-created and co-taught a second-year majors' course covering integrative plant biology, with an emphasis on the relationship between theory and technique. (15%)

**Graduate Ecology.** USU, Fall 2001. I created and taught the Physiological Ecology unit of a team-taught ecology course for graduate students, emphasizing current debates. (7%)

**Plant Ecosystem Processes.** University of New South Wales, March 2006, 2007, 2008. I presented guest lectures in an upper division majors' course on photosynthesis, respiration, stomatal function, stable isotope discrimination and ecophysiology. (7%)

**General Ecology.** USU, Fall 1998. I presented guest lectures about the carbon cycle, global climate change, and thermodynamics for an undergraduate nonmajors' ecology course. (7%)

#### *LABORATORY SECTIONS, WORKSHOPS, ETC.*

**Plant Physiology.** USU, Fall 1997, 1998, 2005, Winter 1998. I taught laboratory courses for an upper-division plant physiology course, created a new simulation-based lab exercise about energy balance and gas exchange, and presented guest lectures on water relations, photosynthesis and gas exchange.

**Plant Taxonomy.** USU, Spring 1998. I taught laboratory courses for an upper-division taxonomy course.

**Introductory Biology.** USU, Fall 1997. I taught laboratory courses for a first-year biology majors' course.

**Advanced Excel Workshop.** University of Sydney, Semester 1 2015. I taught a two-day workshop for PhD students and colleagues on advanced use of Excel, including VBA and Forms.

**Applied Environmental Biology.** University of Sydney, Semester 2 2013. I served as Deputy Coordinator for a first-year majors' course covering all aspects of plant environmental biology.

---

## HONORS AND AWARDS

**Dean's award for outstanding research achievement**, Faculty of Agriculture and Environment, University of Sydney (2015)

**Graduate Research Assistant of the Year (Robins Award)**, Utah State University (1999)

**Graduate Student Researcher of the Year**, College of Science, Utah State University (1999)

**Willard C. Eccles Foundation Fellowship**, College of Science, Utah State University (1994-1997)

**Vice-presidential scholarship**, Utah State University (declined) (1994)

**Summa cum laude** (highest honors), Bachelor of Science degree, James Madison University (1994)

**Award for Excellence in Botany**, Biology Department, James Madison University (1994)

**Full scholarship** to Old Dominion University, Norfolk, Virginia (declined) (1990)

---

## RESEARCH PRESENTATIONS (\*INVITED)

UC Davis Plant Sciences Symposium, Davis, CA, May 2023\*

Workshop on gases in plants, Jülich, Germany, September 2022\*

Phyllosphere 2022, Davis, CA, July 2022\*

Gordon Conference on Plant Multiscale Vascular Biology, Newry, ME, June 2022\*

Brookhaven National Laboratory, January 2022\*

University of California, Davis, Department of Plant Sciences, November 2021

European Geophysical Union (virtual meeting), April 2021\*

University of California, Davis, Department of Plant Sciences, FROGS seminar, March 2021

Universidade Federal de Viçosa, Meeting on Plant Physiology, December 2020\*

~~New Phytologist Symposium on Stomata, Kaifeng, China, September 2020\*~~ (postponed)

University of California, Davis, Department of Plant Biology, February 2020\*

American Geophysical Union, San Francisco, Dec 2019

Almond Conference, Sacramento, Dec 2019\*

University of California, Berkeley, Dept of Env. Science, Policy & Management, Dec 2019\*

Sonoma State University (SSU) Biology Colloquium, Rohnert Park, August 2019\*

SEB Costa Del Science Symposium, Sevilla, July 2019\*

University of California, Davis, Department of Plant Sciences, April 2019

Purdue University, Department of Botany and Plant Pathology, February 2019\*

University of California, Davis, Department of Plant Sciences, FROGS seminar, January 2019

Almond Board of California Annual Conference, Sacramento, December 2018

Workshop on the pressure chamber, Davis, September 2018

University of California, Davis, Department of Plant Sciences, FROGS seminar, May 2018

University of California, Davis, Department of Plant Sciences, April 2018  
Instituto de Recursos Naturales y Agrobiologia, Sevilla, February 2018\*  
Workshop on 3D leaf imaging and modeling, Sydney, July 2017  
10th International workshop on sap flow, Fullerton, May 2017  
IWYP Annual Research Conference, Obregon, March 2017\*  
UC Davis Department of Plant Sciences, December 2016\*  
UC Davis Department of Plant Sciences, July 2016\*  
Workshop on the Kok effect: beyond the artefact, emerging leaf mechanisms, Angers, July 2016\*  
Gordon Conference on Multiscale Plant Vascular Biology, Newry, ME, June 2016\*  
Self-organised complexity of shape symposium, Canberra, April 2016\*  
IA Watson Grains Research Centre Field Day, Narrabri, September 2015  
Ecological Society of America (ESA), Baltimore, August 2015  
Wong-Farquhar Workshop, Kioloa, April 2015\*  
IA Watson Grains Research Centre, Narrabri, February 2015\*  
IA Watson Grains Research Centre Field Day, Narrabri, September 2014  
Gordon Conference on CO<sub>2</sub> Assimilation, Waterville Valley, June 2014 (poster)  
CSU Program for Education and Research in Biotechnology Meeting, Anaheim, January 2013\*
